Xuân Khôi is an absolute pleasure to teach. He is a very conscientious student who always produces quality work. His achievement in French is among the best in the class. He had a fantastic language learning year. He can deduce meaning and demonstrate understanding of the overall message, key points and details in a range of longer passages (including some authentic sources, adapted or abridged). When speaking in French, he can use a wide range of less common vocabulary and more complex grammatical structures to interact naturally, using pronunciation and intonation which would be quite well understood by a native speaker. Xuân Khôi can write coherent longer texts on a variety of topics, containing descriptions, narrations and personal opinions with justification, using at least three tenses. His work is mostly accurate, and the meaning is clear. I would encourage Xuân Khôi to take the external French qualification next year, as by keeping up his good work, he is set to be very successful at the DELF external qualification in French.
